Do Not Delay Essential Care

Schedule Your Appointments Now

- Our main Medical Center and five Community Based Outpatient Clinics continue to be open, safe and ready for your care.
- Please call ahead to notify us of your health care needs at **1-800-461-8262, select Option 2.**
- During this time, we want to discourage “walks-ins” and prefer that all care be scheduled.
- ***Please schedule all your appointments including blood work and x-rays prior to coming to any of our facilities.***
- We will do our best to consolidate all of your care into one visit.

Facility Visitation Policy

To ensure the health and safety of our Veterans, staff and visitors, we're currently following CDC guidelines and limiting visitors for patients receiving care at one of our facilities. Limiting outside visitors helps us protect older Veterans and those who already have health issues.

No one under 18 years of age is permitted at this time.

If you want or need a family member or friend to be a part of a scheduled health care visit, please let us know ahead of time so we can safely prepare for their participation. We do make an exception for Veterans who qualify as an end-of-life "compassionate case."

COVID-19 SAFETY PRECAUTIONS

WEAR A MASK
IT IS A

COVID-19 Vaccine Planning and Distribution

- Wilmington VA Medical Center is expected to **receive initial doses of the vaccine around Christmas.**
- We will begin vaccines with our frontline health care workers (emergency department, inpatient, and other support staff) and residents in our Community Living Center.
- From there, we will be following CDC and VA guidelines for vaccinations moving to higher risk populations, such as age comorbidities, etc.
- We will be communicating updates around our plan at Wilmington VA Medical Center through direct outreach, social media and website updates.

Why do I need a COVID-19 vaccine?

The coronavirus disease (COVID-19) has caused severe illness and death around the world. This is, in part, because the virus that causes COVID-19 spreads easily from person to person.

We have some treatments to help reduce the effects of COVID-19, but a vaccine that helps prevent people from becoming infected is the best way to slow or stop the spread of the virus.

COVID-19 Vaccine FAQ: www.va.gov/covid-19-vaccine

How do vaccines for viruses like the coronavirus protect me from getting sick?

Vaccines help train your body's natural immune system to recognize and fight a specific disease by stimulating a response to the virus that causes that disease.

When a virus is introduced to your body for the first time, your immune system mounts a defense. This includes making antibodies that help kill or neutralize the virus. If you're exposed to the same virus again, these antibodies also help your immune system recognize and fight the virus quickly.

COVID-19 Vaccine FAQ: www.va.gov/covid-19-vaccine

U.S. Department of Veterans Affairs
Wilmington VA Medical Center

COVID-19 Vaccine Overview

- VA is working with the Centers for Disease Control and Prevention (CDC) to develop a phased plan to maximize the benefit of COVID-19 vaccine once authorized by the Food and Drug Administration (FDA).
- There will be limited vaccine available initially until production increases.
- As more vaccine becomes available, VA's goal is to offer a COVID-19 vaccine to all health care workers and Veterans who choose to be vaccinated.
- Even after getting a COVID-19 vaccine, source control (masks and face coverings), personal protective equipment (PPE) and physical distancing will still be needed.

COVID-19 Vaccine FAQ: www.va.gov/covid-19-vaccine

COVID-19 Vaccine Planning BLUF

Vaccine authorization by FDA may be as soon as late Dec. 17.

VA will be ready to rapidly deploy vaccine when approved.

Highest risk groups will be offered vaccine first, based on criteria from the National Academies of Science Engineering and Medicine, who are advising CDC:

- Risk of acquiring infection
- Risk of transmitting disease
- Risk of severe illness and death
- Risk of harm to society (if essential workers, including health care personnel, are unable to work)

COVID-19 Vaccine FAQ: www.va.gov/covid-19-vaccine

COVID-19 Vaccine Phased Roll-Out

VA will offer the COVID-19 vaccine to highest-risk health care personnel (HCP) first. Here's why:

COVID-19 Vaccine

HCP

High-Risk Veterans

Decreases transmission to Veterans and other employees

Helps keep VA health care functioning

Promotes a stronger, healthier workforce

Provided as vaccine becomes available

Offered by risk level:

Older Veterans first
then those with several
high-risk factors

More than 50% of
Veterans are age 65+

COVID-19 Vaccine What is VA Doing to Prepare

Conducting planning exercises to address how to

- Coordinate ordering, storage, handling of vaccine
- Offer vaccine to highest-risk groups based on number of doses available
- Release targeted communications & outreach/scheduling to high-risk groups
- Administer vaccine

Informing and engaging Veterans in vaccine planning by

- Conducting listening sessions and interviews to understand Veteran interest and best ways to reach different demographic groups (e.g., race, ethnicity, age) regarding a vaccine

Ensuring safety by

- Tracking and monitoring adverse reactions to ensure safety and promote continued safe use as with existing vaccines

Information on Mail-Order Prescriptions

There have been reports of delays in Veterans receiving their mail-order prescription drugs due to delays in U.S. Postal Service (USPS) deliveries. The VA Consolidated Mail Outpatient Pharmacy is proactively attempting to offset any possible USPS delivery delays by pulling medications 15 days prior to the original refill due date indicated on the prescription label.

If you use our mail-order prescription services and have not received your medication within 7 – 10 business days of the date indicated on your mail-order prescription, please contact the Wilmington VA Medical Center Pharmacy Call Center at **302-994-2511 ext. 5359** or reach out to our Pharmacy Service via Secure Messaging on **MyHealtheVet**. Our Pharmacy Service will then be able to investigate the matter and assist you with your medication needs.

We appreciate your understanding, and we are doing everything within our power to ensure any Veteran who receives his or her VA prescription medication through the mail receives it on time.

VA would like to provide you with important information about your VA health care, community care, and prescription copays.

We know that the COVID-19 pandemic has caused financial hardship for some Veterans. That's why we put our monthly patient statements on hold starting on April 6, 2020. We'll begin sending patient statements again in January 2021, and we want to make sure you have the information you need to prepare.

Here's what you need to know for January

In January 2021, you will receive a patient statement that may include the total amount of any:

- New charges for medical care and prescriptions you received from April 6, 2020 through December 31, 2020.
- Unpaid charges for medical care and prescriptions you received before April 2020.

You don't have to make any payments until January 2021. But you can choose to make early payments before January if you'd like.

Your current balance is \$265.00 AS OF NOVEMBER 20, 2020.

Current amount owed

Method of payment

If you would like to make a payment at any time between now and January 2021

You can pay in any of the ways listed below. Please have your account number ready when making a payment.

- o Online: www.pay.gov
- o By mail:
